

October November
December 2025

Halloween is so much fun because it's not like other nights of the year. Have fun and stay safe by following these tips:

See and Be Seen!

After dark, kids aren't usually swarming the neighborhood. But on Halloween night, they are. That's why kids need to watch out for cars and other traffic. Be sure that your mask or costume doesn't cover your eyes or make it tough for you to see where you're going. You might think about wearing makeup instead of a mask. If you do wear a mask, make sure the eye holes are big enough that you can see. Kids also need to be seen on Halloween, so it's a good idea to wear or carry something that glows in the dark. You might choose a glowing necklace, a glow-in-the-dark treat bag, or a flashlight. Your parents also can apply reflective tape to your costume.

Don't Trip!

You want your costume to look cool, but there's nothing cool about tripping and stumbling all Halloween night. Make your costume trip-proof by: making sure it's not too long wearing shoes that fit

avoiding swords, canes, and other props that can get in your way

Don't Go It Alone

It's best to trick-or-treat with family members or friends. And it's also a good idea to have a grownup with you. A cell phone can be another handy item to have along. That way, you can check in with a parent or call for help, if needed.

Talk it over with your mom or dad when you're deciding where to trick-or-treat. Sticking close to home is great because then you'll know many of the people and you won't get lost in unfamiliar neighborhoods. And people who already know you just might throw an extra treat in your bag!

When trick-or-treating, avoid going inside a stranger's home. Sometimes a person might invite you in for a treat, but you can just say that your mom or dad asked you not to go inside anyone's house. (Likewise, never go up to or into a stranger's car even if the person offers you a Halloween treat.)

And if you're wondering about whether to go to a certain house, check if the porch light is on. If not, that's usually a sign that they aren't home or they don't want any trick-or-treaters.

Let's Talk Treats

Before you start eating the treats in your bag, you'll want to get a good look at them. When you get home, dump everything out and let your mom or dad see what you have. They can help you get rid of stuff you shouldn't eat. For instance, you don't want to eat anything that's loose or not in a wrapper. Anything

unwrapped, including fresh fruit, should be thrown away. Without a wrapper, it's hard to tell if food is clean and safe to eat.

Once you've looked over your treats, you'll probably wonder just how much you can eat. Well, it's best not to overdo it. If you don't eat too much on Halloween, you'll have leftovers to enjoy in the days and weeks to come. In other words, you can make Halloween a little sweeter by making it last a little longer!

HALLOWEEN PARTY

We have scheduled our **annual "Halloween Party" Friday October 31, 2025.**

If you would like your child to dress up for our party, please have your child dressed in their costume when they arrive at school. Also, please bring a change of clothing for the staff to change your child into around 10:30 am. Please remember that the Center **DOES NOT** promote violence so please keep your child's costumes neutral.

Your child may bring candy if they wish to share with others.

Just a reminder that we are CLOSED Thursday November 27 and Friday November 28, 2025 for Thanksgiving.

Here turkey, turkey, turkey

Turkeys are able to adapt to a wide variety of habitats. However, most turkeys are found in hardwood forests with grassy areas.

The best time to see a turkey is on a warm clear day or in a light rain.

They what?

Turkeys have heart attacks. When the Air Force was conducting test runs and breaking the sound barrier, fields of turkeys would drop dead.

Turkeys can drown if they look up when it is raining.

Eat, sleep, gobble

Turkeys spend the night in trees. They fly to their roosts around sunset.

Turkeys fly to the ground at first light and feed until mid-morning. Feeding resumes in mid-afternoon.

Gobbling starts before sunrise and can continue through most of the morning.

Eyes in the backs of their heads?

A wild turkey has excellent vision and hearing. Their field of vision is about 270 degrees. This is the main reason they continue to elude some hunters.

And they're fast, too!

A spooked turkey can run at speeds up to 20 miles per hour. They can also burst into flight approaching speeds between 50-55 mph in a matter of seconds.

Telephone Calls:

Unless it is an emergency to talk with our staff, we ask that you call between the hours of 12 noon – 5:30 pm. Our staff is so busy during the morning hours, especially during preschool that to answer

the phone is very
distracting to the
children.

Thank you so much for
your understanding!

Holiday Schedule:

*Thanksgiving/Day
After. Thursday and
Friday November 27 &
28, 2025 Closed*

*Wednesday December
24, 2025 Christmas
Eve Closes early at
12:30 pm and Thursday
December 25, 2025
Closed.*

*Thursday January 1,
2026 New Year's Day
Closed.*

*Autumn/Winter
Clothing*

*Cooler weather is
rapidly approaching!
ugh! With this in*

*mind we want to
encourage our parents
to dress their children
accordingly. Just a
reminder, if the child
is well enough to be at
the
Center, the child is
assumed well enough
to go outdoors. We
have policies and
procedures in place to
determine if the
weather conditions
are acceptable for
outdoor play.*

*Mark your
calendars! The
preschoolers
(Ladybugs &
Fireflies) will be
performing their
annual Christmas*

*Program Thursday
December 18, 2025
at 4:00 p.m.*

Christmas Parties!

*Another date to
remember!*

*Wednesday December
17, 2025.*

*Each class room will
have their own
individual Christmas
party this year!
Children may bring
treats if they wish to
share with their
friends! (6wks-
Fireflies).*

~Thank You ~

*Ms. Vickie and I
would like to express
our appreciation to*

all our parents and family members for your encouragement and support this past year. We truly have enjoyed having your child here at our Center and feel honored to be your chosen Daycare /Preschool.

Your business is very much appreciated, and we will do our very best to continue to meet your childcare needs.

Your continued patronage and suggestions are a vital part of our growth. And for that, we are most grateful.

Thank you again! We look forward to serving your family for years to come.

POLICY REMINDERS

~When you see a "note" taped to your child's cubby please make sure you read and respond to those correspondence.

~We would also like to remind parents that you **pay for your child by the week, not by the day**. So, if a holiday falls on the weekday you will pay for the entire week.

~If **inclement weather** necessitates closing of the Center, announcements will be made on the Center's answering service. We try and keep our doors open the best we can, however, if Southeast Polk Schools are closed it is a good indicator to call the Center. We are not necessarily closed when they are but it is a guideline for you to follow.

~ **Medications** are given at the Center; however, proper labels will be required (by the physician or pharmacist if the medication is a prescription) or clearly marked on the bottle/container for non-prescription medications, you cannot bring medication in syringes or placed in baby bottles. Parents need to complete a medication form

prior to the staff dispensing the medication. Thanks!

~Just a word regarding the **children who attend elementary school**.

Parents are encouraged to keep an eye on the schooler's bulletin board where we post many important memos. One being the sign-up sheets for a no school day. We usually post a sign-up sheet for those children planning on attending a full day at the center. Remember, if you sign your children up to attend the center, you will be responsible for payment on those no school days. We plan in advance for extra food and staffing to ensure your child's needs are met.

Please remember to sign your child in and back out on the sign in sheet daily. We ask that parents sign their children in and not allow their children to sign these documents. The documents can and have been reviewed by various state and local offices. We feel so fortunate to have such awesome parents, we thank you in advance for

your support and cooperation.

So, how can you help keep your child from getting the Flu?

Although there is no guaranteed way, including the vaccine, to prevent anyone from getting the flu, the simplest way is to avoid large crowds. As we all know this is almost impossible to do, so the next best thing is hand washing which helps prevent the spread of infections like the flu.

Although the flu season is typically from November to April, most cases occur between late December and early March with the vaccine offered between September and mid-November (however the shot can be given at other times of the year). Getting the shot before the flu season is in full force gives the body a chance to build up immunity to, or protection from, the virus. You can get a flu shot well into the flu season; it is best to

get it earlier rather than later. Be sure to check with your physician to make sure this vaccine is necessary.

"Did you wash your hands?"

How many times did you hear that today? Probably a lot. But why are adults so hung up on hand washing? Why are they so in love with lather?

Washing your hands is the best way to stop germs from spreading. Think about all of the things that you touched today - from the telephone to the toilet. Maybe you blew your nose in a tissue and then went outside to dig around the dirt. Whatever you did today, you came into contact with germs. It's easy for a germ on your hand to end up in your mouth. Think about how many foods you eat with your hands.

You can't wear rubber gloves all day long, but you can wash your hands so those germs don't get a chance to make you or someone else sick. When germs go down the drain, they can't make anyone sick.

So, when are the best times to wash your hands?

- before eating or touching food (like if you're helping cook or bake, for example)
- after using the bathroom
- after blowing your nose or coughing
- after touching pets or other animals
- after playing outside
- after visiting a sick relative or friend

Now you have the when and the why of hand washing. But did you know that a lot of people don't know **how** to get their paws perfectly clean? The next time you're told to step up to the sink and scrub up, remember these handy hints:

1. Use warm water (not cold or hot) when you wash your hands.
2. Use whatever soap you like. Some soaps come in cool shapes and colors or smell nice, but whatever kind that gets you

scrubbing is the kind you should use. Antibacterial soaps are OK to use, but regular soap works fine.

3. Work up some lather on both sides of your hands, your wrists, and between your fingers. Don't forget to wash around your nails. This is one place germs like to hide. Wash for about 10 to 15 seconds - about how long it takes to sing "Happy Birthday." (Sing it quickly two times or just once if you go nice and slow.)
4. Rinse and dry well with a clean towel.

Facebook

You may also find us on Facebook under the name of, Nannies Unlimited. Where every Monday morning I post what the week's "Focus of the Week" will be for each individual class. I also will periodically post items (children's clothing, toys, furniture etc....) that have been pulled from the shelves or has been recalled by our government.

FROM THE NURSERY

Please dress your baby in simple, comfy clothing. Nothing fancy with a lot of snaps or buttons. Their nanny needs to be able to change your child out of their soiled clothing quickly and easily. When

babies have several layers of clothing and snaps this makes it very difficult (as baby is already upset and uncomfortable enough!) Some suggested items of clothing is: elastic waist pants and undergarments, one-piece sleeper type clothing, Onesies, sweat pants ("baby work out pants!")

Overalls (denim bibs) and tight fitting jeans are hard to work with as are tight fitting clothing/necklines. Baby clothing is so cute but remember simple is better for both the caregiver and the child. Please label everything with the baby's name. All items such as blankets, bottles, diapers, wipes, food, jars, boxes and cans. There are eight babies in the Nursery and as most parents can appreciate having things organized is very helpful to the staff. Please write down all information that is important for the Nannies to know such as the child being fussy, ill or any unusual eating habits prior to attending the center. Please take note that the Nannies write down important information about your child on the communication sheets regarding supplies needed, so please read your sheet daily so our supplies are replenished and we receive the items that meet the needs of your child.

Look for our next newsletter
in January 2026!
